

Homeopathy & Wellness

With a bit of background knowledge, a good reference book and some practice, Homeopathy can be used in many situations at home: from teething discomfort to a childhood fever, from period pain to tummy upsets, from injuries to emotional traumas such as exam nerves or grief.

Registered Classical Homeopath, Diane Willcock, MSc, PhD, RCHom, is offering her popular four session course introducing the principles of homeopathy and teaching how to use the remedies for family and friends for injuries, minor illnesses and other situations where homeopathy can support wellness.

We will also look at recognising when home treatment is not sufficient.

The course is aimed particularly at parents but is suitable to anyone wanting to learn about this amazing system of wellness.

Dates: Mondays
February 17, 24,
March 2, 9

Time: 7.30 – 9.30pm

Venue: Hamilton East
(Address supplied on
registration)

Cost: \$100
